Equity Outlook

The month of February 2013 saw the benchmark indices; BSE Sensex and CNX Nifty shed around 5.19% and 5.66% respectively, even as the Mid-cap index, CNX Mid-cap lost 9.84% during the same period

FII's were net buyers with net inflow of around USD 4.5 billion in February 2013 even as the DII's were net sellers to the tune of around USD 1.6 billion, with domestic mutual funds net sellers of around USD 0.2 billion and Insurance companies net sellers of around USD 1.4 billion over the month. In the first two months of the calendar year 2013, the FIIs have been net buyers to the tune of USD 8.6 billion with the DIIs net sellers to the tune of USD 4.8 billion, Insurance Companies and mutual funds selling Indian equities to the tune of USD 3.7 billion and USD 1.1 billion respectively.

Consensus earnings estimates for the broad market (MSCI India) were cut by 0.7% and 0.5% for FY13 (E) and FY14 (E) over the month. The street now estimates earnings growth of 11% and 15% for FY2013 (E) and FY2014 (E) respectively.

The Finance minister (FM) delivered the Indian Union Budget in the backdrop of a slowing global economy with India, despite a sharp moderation in growth, still the third fastest growing economy among large countries, after China and Indonesia.

The Fiscal deficit for the fiscal FY 2013 has been pegged at 5.2% and could be reined in at 4.8% in FY 2014. Marginal increase in taxes for cigarettes, SUVs and the surcharge on the incomes of the super rich was largely in line with expectations. The increase in surcharge on corporate profits will impact the corporate earnings growth by about 1-2%.

In the Union budget, the FM stressed the need for new and innovative instruments to mobilize funds for investment in infrastructure. The FM assured that the Cabinet committee on investment (CCI) would speed up decision making on key large ticket infrastructure projects with decisions already taken in gas, power and coal projects. In a bid to kick start the stalled capex cycle, the FM stated that the companies investing ₹ 100 crore (USD 18.5 million) or more in plant and machinery during the period 01.04.2013 to 31.03.2015 will be entitled to deduct an investment allowance of 15% of the investment. There were some initiatives around constructing two new smart industrial cities, providing more funds for Delhi Mumbai Industrial Corridor (DMIC), two major ports in West Bengal and Andhra Pradesh as well as creating a PPP policy framework on reducing dependency on imported coal.

FM elaborated specific initiatives for the growth of the Micro, Small and Medium Enterprises (MSME) and extended the benefits enjoyed by them to three years after they grow out of the category. The FM extended the Technology up gradation fund scheme (TUFS) in the 12th Five year plan with an investment target of ₹ 1,51,000 crores (USD 28 billion). FM provided an allocation of ₹ 14,000 crores (USD 2.6 billion) to the PSU bank recapitalization in line with Basel III regulations in the fiscal 2013-14.

The FM set aside a sum of ₹ 9,000 crore (USD 1.6 billion) towards the first installment of the balance of CST compensation provided in the budget and expected the work on draft GST Constitutional amendment bill and GST law to be taken forward.

The Railway budget announced a 5-6% rail freight hike and carried the reforms forward by introducing fuel adjusted component (FAC)-linked revision in freight tariff.

The RBI has released final guidelines for issuing new bank licenses without specifically excluding any segment of the corporate but indicated that promoters whose business activities are subject to high asset price volatility or those which are speculative in nature will not be considered as "fit and proper". The RBI has kept subjectivity in cases like diversified ownership, professional management, feedback from regulators, and assessment of business plan with regard to financial inclusion.

After eight months of contraction, exports growth turned positive in January with growth of 0.8%. However, the export growth failed to lower the trade deficit as it continued to remain wide at USD 20 billion in January. Exports in January were at USD 25.6 billion while imports grew 6.1% to USD 45.5 billion.

Oil marketing companies have announced a second diesel price hike of INR0.45/ltr (within a month of first price hike). This announcement is a positive and allays to some extent, investor concerns on the likelihood of regular price hikes.

The market offers the comfort of reasonable valuations at around 14 times one year forward price earnings. We believe that the Indian equities offer an attractive entry point for a long term investor with a 3-5 year view

Funds Available With Current Product Offerings

- A Snapshot (as on 28th February 2013)

Debt Outlook

February 2013 saw the benchmark 10 year Government security (G-sec) rally by 4 bps to close the month at 7.87% levels.

February 2013 saw the G-sec market rallying for most of the month due to a better than expected January WPI inflation print and muted net supply in the G-secs due to Open market operations (OMOs) and a cancellation of auction. though it hardened towards the end of the month post the Union Budget for FY 2013-14. The yields of the 30 year G-sec over the 10 year Gsec expanded to around 25 bps in February 2013 as against the 20 bps, seen in the prior month.

The corporate bond hardened during the month of February on the back of large supply, to close the month at around the 8.90% levels in the 5-10 year bonds, 15 bps higher than the January levels of 8.75%. As a consequence, the corporate bond spread over the benchmark 10 year G-sec stood at around 85 Bps in February 2013, 15 bps higher than the January 2013 bond spread of 70 Bps.

On the liquidity front, the Liquidity Adjustment Facility - LAF continued to be the primary mode of liquidity injection, maintaining a shortfall of over ₹ 1 trillion (USD 18.5 billion) levels for most of the month, largely due to the increase in government balances which was estimated at around 1 trillion (USD 18.5 billion) due to reduced government spending, as well as muted deposit growth in the banking system, thereby necessitating the RBI to shore up the liquidity through the Open Market Operations (OMOs). The Government cancelled the last bond auction of ₹ 12,000 crores (USD 2.2 billion) for FY2013, scheduled on February 22nd 2013, after reviewing its cash position and funding requirements.

In the Union budget, the FM stressed the need for new and innovative instruments to mobilize funds for investment in infrastructure and pegged the mobilization from infrastructure tax-free bonds at ₹ 50,000 crores (USD 9.2 billion) in FY 2013-14. He raised the corpus of Rural infrastructure development fund (RIDF) to ₹ 20,000 crores (USD 3.7 billion) and provided ₹ 5,000 crores (USD 925 million) to NABARD for financing warehouses.

The FM delivered the fiscal deficit for FY 2013 at 5.2% and attempted to rein in the fiscal deficit at 4.8% in FY 2014 by estimating ₹ 54,000 crore (USD 10 billion) from the divestment programme and capping the oil subsidy at ₹ 65,000 crores (USD 12 billion). The Government expects the revenue buoyancy in the fiscal 2013-14 with taxation revenues growing at 19%, overall revenues 21% and expenditure 16%. This will result in the net borrowings to the tune of ₹ 4,84,000 crores (USD 89 billion) and impart some pressure on the 10-year G-Sec yields.

The GDP growth for 3QFY13 came in at a near decade lows of 4.5% versus a consensus estimate of 4.9 %, showing persistent signs of slowdown. The muted GDP print could nudge the RBI in acting on interest rates sooner than later.

The rally in G-secs could sustain if the RBI continues favour the OMO route to offset liquidity pressures, broadly seen prevailing in the system till March 2013. The RBIs policy response in the Mid quarter monetary policy review on March 19 2013 and their view on the Government's fiscal consolidation initiatives in the Union budget for FY 2013 would provide cues for the G-sec market in the medium term.

In the near term, the absence of G-sec supply through weekly auctions in March 2013 would keep the yields soft and the 10-year yield G-sec may trade in the range of 7.65-7.95%.
